intelligent software solutions

**INTEGRITY** | Retail

# THE COMPLETE RETAIL SOLUTION, TAILORED TO BE FEATURE RICH FOR THE MODERN RETAILER.

## LOCAL KNOWLEDGE

Integrity Software has been offering flexible and cost effective software solutions in the South African market for more than twenty years. Our reputation and product pedigree is what makes us different.

Integrity Retail is the complete end-to-end solution that is developed and supported in SA

## CHOOSING THE RIGHT SOFTWARE

Finding and choosing the right retail software is key to ensuring that your business operations run effectively and efficiently. Retail software should allow you to spend more time using the information and not producing it. This, coupled with stringent control, retail intelligence and high security functionality should be the cornerstone of your criteria for selecting the right system.

**If you have more than one store and all the challenges of expansion and the need for control then Integrity Retail is the solution for you**

A COMPLETE END-TO-END SOLUTION  
REGARDLESS OF LOCATION OR COMPLEXITY.

“In Nov 2009, we experienced problems with the POS system that we were using in our satellite stores. A call was made to Integrity and by the end of the month Integrity Retail had been implemented and was up and running at Head Office as well as our 9 satellite stores. Since then we have added an additional 3 stores with minimal interruption to our customers.”

Elaine Johnston, Retail Operations Manager  
CaRRoL BoYeS Head Office Cape Town
